GERMANS BACK MEXICO

ENTENTE ALLIES PLEAD WITH UNITED STATES FOR PEACE

ENGLAND AND FRANCE SEE MAILED HAND OF THE KAISER EGGING ON CARRANZA

Mexican Legation in Europe Distribute Official Statement Denying Warlike Reports Ascribed to That Nation and Asserting They Emanate From Washington

(By Associated Press.)

PARIS, June 21.—Mexico, in placing its case before the European public in a statement issued by the several Mexican legations, says the reports that war is inevitable and that Carranza's attitude is due to German intrigue, came from American sources. The statement declares diplomatic interchanges were interrupted by sending the expeditionary corps into Mexico, constituting a violation of Mexican sovereignty.

(By Associated Press.)

WASHINGTON, June 21.—Special Agent Rodgers telegraphed the Secretary of State today that the American note has reached Mexico City and is being considered by Carranza and his cabinet.

(By Associated Press.)

WASHINGTON, June 21.—Pressure is being brought to bear on Carranza by representatives of European powers to prevent a formal break with the United States. Indirect reports reaching the Secretary of State told of these efforts, which are said to have a possibility of success. Agencies of the entente allies are understood to be active for peace, believing that Germany has sought to inflame the Mexicans against the United States with a view of preventing Americans from gathering trade formerly controlled by Germans in Mexico and South and Central America.

It is pointed out that Carranza might avoid war by calling for an international commission to discuss the border situation, as provided by the treaty of 1848.

There has been no suggestion from Mexico in favor of such steps.

JUNE WEATHER HAS BEEN MUCH COLDER

There is nothing so fair as a day in June, but when a fellow wants a friend to lend him an overcoat it is carrying the summer resort idea too far. Last night the mercury dropped to 36 and a few degrees lower will cause householders to chase around after old garments to swathe their flower gardens which are coming back after the severe shock of the frost of two weeks ago. Despite the common statement that nothing of the kind was ever experienced before, the Weather Bureau comes out with the glib fact that it was worse in 1908, when on the third day of June thermometers in Tonopah registered 26 degrees. With the wind in the northwest frost may appear to night.

GUARDS AWAITING MARCHING ORDERS

Until Mobilization is Completed and Ranks Filled Troops Will Be Held

(By Associated Press.)

WASHINGTON, June 21.—Marching orders for guardsmen summoned to the colors under Wilson's call have been held up pending completion of the mobilization in state camps. When a sufficient number has been mustered into the federal service the Secretary of War will act on Funston's request, when those

he desires will be sent to the stations where he wishes to place reinforcements.

The suggestion that the senior class at West Point be graduated immediately is under consideration. They could be commissioned second lieutenants at once.

There have been no additional advices from Funston regarding the movements of Carranza troops.

The Germans exploded two mines before launching their infantry. The repulse was due to the effectiveness of the French screen fire. The Verdun sector is under bombardment.

ORPET LETTERS VERY DAMAGING

PROSECUTION INSISTS ON THEIR ADMISSION BUT DEFENSE OBJECTS STRONGLY

(By Associated Press.) WAUKEGAN, Ill., June 21.—Judge Donnelly has not prepared a rule affecting the competence or incompetence as evidence of the earlier letters of Orpet to Marian Lambert. The defense objected to them as having no bearing on the girl's death. The judge, in the absence of the jury, said the letters were so prejudicial to Orpet and plainly indicating seduction that they would be dangerous to submit to the jury. The prosecution argued for their admission on the ground that an illicit love affair ending in murder could only be shown by their admission.

ENLARGED ARMY PROVIDED FOR BY RECENT PREPAREDNESS BILL

The new Chamberlain bill, which became a law last week, puts the peace strength of the army at 211,000 officers and men, including 25,000 staff troops, Philippine scouts and unassigned recruits, and the war strength at 236,500 officers and combat troops, which with staff troops, scouts, etc., would bring the total aggregate maximum of the regular army to 261,500. As reorganized, the National Guard would number 457,000, making a grand total available war strength of 718,500. Other important features include an appropriation of \$20,000,000 for a government nitrate manufacturing plant, the establishing of military training camps for volunteer citizens and the creating of several boards to investigate questions of preparedness. Authority is given the government to seize and operate privately owned munition plants in war time. Regular army enlistment is fixed at seven years, four of which may be spent in reserve and at no time after five years, when the minimum is to be obtained, is the peace strength to go under 160,000.

PERSHING MOVES MEN IN OPEN DEFIANCE

Sends Out a Strong Detachment on Scouting Duty to Report Mexican Movements

(By Associated Press.)

SAN ANTONIO, June 21.—Gen. Pershing has given the Mexicans an opportunity to make good their threat to attack if he moved east, west or south, but they declined the issue.

Pershing sent a force eastward to Guzman to investigate the reported concentration of Mexican troops. In reporting to Gen. Funston, Pershing said his detachment had failed to find troops.

Reports to headquarters told of the arrival of more soldiers at Ojinaga and Agua Prieta. Beyond Ojinaga increased activity is noted. The heaviest addition to the Mexican army is said to be at Piedras Negras, where Gen. Murguía arrived last night with 2000 men.

Gen. Parker, at Brownsville, reported that he is unable to confirm the rumor that Americans at Cerralvo were massacred.

NOT ANOTHER CITY OR TOWN IN THE COUNTRY CAPABLE OF MAKING LIKE SHOWING

"I have closed my last case in bankruptcy and cleared the docket," remarked J. Poulade, referee in bankruptcy, this afternoon. "And you can believe me that there is not another city in the United States with the same population and volume of business that can boast of the same condition. When I left the courthouse at noon it was with the satisfaction of knowing that not a single bankruptcy case remains against the credit of this town."
